NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: --Reorient or relocate the receiving antenna. --Increase the separation between the equipment and receiver. --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. --Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

INSTRUCTIONS FOR USE

(controls can be found on bottom of clock)

Installing/Replacing the Batteries

This unit requires 3 AA batteries (included)

Note: Batteries should always be installed by an adult.

1. Use a Phillips screwdriver to open the battery compartment door located on the bottom of the unit.
2. Insert 3 AA batteries into clock with + and - terminals as indicated in the the illustration to the right.
3. Replace the compartment door and tighten up the screw with a Phillips head screwdriver. Do not over-tighten the screw.

TO SET THE TIME:

- Hold the SET button down until the clock blinks.
- Then, use the HOUR and MIN buttons to set your time. The clock will display "AM" for morning and "PM" for night.
- When the time is correct, tap the SET button twice. It is now set.
- The clock is a backlit LCD. To see the time, tap the front button underneath the display.

TO SET THE ALARM:

- Be sure the ON/OFF switch is in the ON position.
- Hold down the SET button until the clock blinks, then tap the SET button once more.
- Use the HOUR and MIN buttons to set your alarm time. The clock will display "AM" for morning and "PM" for night.
- When the alarm time is correct, tap the SET button once. Your alarm is now set.
- The time you set will be the final alarm (wake time).

HOW THE ALARM WORKS:

To allow your child to wake up gradually, this alarm features a 3-sound wake-up system.

- 5 minutes before the wake time, your clock will make some light noise to begin easing your child awake.
- 2 minutes before the wake time, your clock will make more noise and add flashing lights.
- At the wake time, your clock will get louder and the actions starts!
- Alarm automatically shuts off after 5 minutes.
- You can also stop the alarm by pressing the front button underneath the clock display.
- The alarm will remain set for the next day unless you change the bottom switch to OFF.

TO ACTIVATE WITHOUT THE ALARM:

- Tap the front button under the display to light up the time with no sound.
- Press and hold the front button under the display, and your clock will come to life!

NOTE:

You may use a micro USB cord instead of batteries to power your clock. The rear of the clock has a port for that, but the cord is not supplied.
