

SLAP DRAGON

Game Rules

2 Players, Ages 4 & Up

OBJECT:

Collect the entire deck of cards.

SET UP:

Shuffle and deal out the entire deck.

PLAY:

- Both players play at the same time.
- Hold your cards in a pack, face-down. Don't look at them.
- Both of you take a card from your pack and place it face-up on the table. Place the cards close to each other, but not touching. These cards will form your discard piles. Continue to play cards at the same time until somebody plays a Dragon, or until both played cards match.
- If either of the cards that were played is a Dragon, or if both of the cards match each other, hurry up and slap them! If you're first to slap them, you get to keep all the cards on the table! Take the cards you've won and put them at the bottom of your pack.
- If you run out of cards, watch carefully as your opponent continues to play cards. If you're first to slap the Dragon or matching cards, you win the cards and can get back in the game.

WINNING:

If you've collected the entire deck of cards, you win!
