

MAD MOVES™

KIDZ BOP & PlayMonster have teamed up to bring you this fun sample of Mad Moves® --a game you can play with your family! We hope you have tons of fun! This is just a sample of the game, but you can buy the full version at Walmart.com!

MAD MOVES™

3 or More Players • Ages 8 & Up

RULES

Object:

Guess as many dance moves as possible, while laughing and having a blast, to win the most category cards!

Set Up:

- Set the stage! You'll be movin' and groovin' so make sure there's nothing breakable in the area, nothing that you could trip over, etc.
- Separate cards into two piles—category cards and tomato cards. Category cards can be shuffled and placed face down.
- Get some music ready—click the button at the bottom of the web page to link to our special KIDZ BOP playlist that you can groove to!

Link: kidzbop.com/madmoves

- Decide how many rounds you're going to play. For larger groups, you may want to stick to two or three; for smaller groups you could play more rounds. Up to you!

Play:

- The youngest player draws a category card. Don't let anyone see it! The card will tell you what action, person or animal you will have to dance like.
- Start the music, and then start dancing!
- All other players then try to guess what your category card is. They're guessing WHO or WHAT you're dancing like. The player who guesses correctly wins the category card (as a point).
- While doing your performance, you cannot talk or make sound effects. You must dance, and not just charade what's on the card.
- If no one can correctly guess your category card, you get a tomato card. Tomato cards cancel out one of your category cards you may earn (they count as a negative point, so you lose a point), so you don't want them! You WANT people to guess your category card!

Winning the Game:

When the agreed-upon numbers of rounds have been played, everyone check their points! Each category card you have counts as one point, but each tomato card counts as MINUS one point!

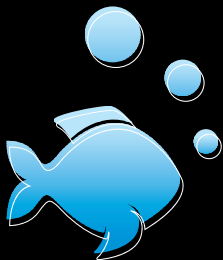

Do the math, and celebrate the winner!
