**HANGAR CHECKLIST**

**LANCE**
**SV-51 Scout**
*Fast and agile, Lance can fly deep into enemy space and scout ship locations and formations in preparation for battle.*

**SCYTHE**
**AV-19 Tank**
*Scythe is an all-terrain assault vehicle capable of fast travel while packing twin cannons capable of eliminating enemy land vehicles and structures.*

**SABRE**
**XF-33 Interceptor**
*Sabre's ability to fight in both deep space and planetary atmosphere makes it ideal for a variety of strike missions.*

**TRIDENT**
**ST-33 Gunship**
*Trident can fight its way into enemy territory and deploy drones that can be used for defense or recon, and then recover cargo or salvage with its power winch.*

**GLADIUS**
**AC-75 Drop Ship**
*Gladius can clear landing zones with its offensive weapons and then deploy a fast attack rover for ground missions.*

**LOCUST**
**K.L.A.W. Stealth Craft**
*Difficult to detect and capable of disabling enemy ships with a single shot from its powerful railgun, the Locust is a silent threat.*

**SAWFLY**
**K.L.A.W. Minelayer**
*This anti-material attack ship has powerful armatures that rip open armor plates to place high-explosive mines into the fissure.*

**SCARAB**
**K.L.A.W. Interceptor**
*Scarab is heavily armed and equipped with wings designed to cut through armor.*

**SCORPION**
**K.L.A.W. Troop Dropper**
*Armed to the teeth, the Scorpion can blast its way to a ground target and then drop six Komplex Shock Troops via deployment pods.*

**WASP**
**K.L.A.W. Heavy Fighter**
*Wasp is a fearsome foe armed with massive cannons, ship-killing missiles, and rail cannons.*

**FALX**
**SC-41 Escort**
*Falx’s plasma cannons tear apart capital shielding, leaving the enemy vulnerable to the powerful nuclear torpedo.*
